TOWN COUNCIL

The meeting of the Councillors held on Monday last was notable mainly for the clarity with which they dispatched the exceptionally light menu which accident, incident and the Secretary-Treasurer had prepared for them.

Usually by the time minute soup, hors d'oeuvres of communication, and extremists of irrelevant discussions have been served, our venerable Councillors are more or less in such a state of mental indigestion which makes it seemingly impossible to bring discussion to a head by motion.

In fact, the very suggestion of motion so often produces a state of horripilation that one Councillor absolutely refuses to be responsible for the consequences of such and contents himself by repeating the somewhat hackneyed phrase "Second the Motion." We might also add that he brought his totemus again this week.

With the exception of recommending that vacant lots in possession of the town be offered to citizens for garden plots this year, and, in reply to a communication from G. F. Hinder relative to the purchase of certain lots and building adjoining the C.P.R. land office, offering same to him for the sum of \$400.00, very little of importance was transacted, and "Second the Motion" was easily invoked into facilitating the adjournment motion.

U.F.A. Locals Will Convene at Bassano

The "Mail" is informed on excellent authority that all the U.F.A. continued on last page.

Countess and Rosemary Farmers Will Join Bow Valley Society

A meeting of the farmers of Rosemary and Countess districts was held on Monday at the C.P.R. House, Rosemary. Despite the short notice given of the meeting upwards of 30 farmers were in attendance, and displayed the greatest possible interest in all of the addresses.

Mr. Griffin Supt. of Engineering, gave a valuable talk on the preparation of land for irrigating, leveling, etc. Don Bark, of Brooks, gave an address on general agricultural subjects, "B. S. Tedman, a talk on live stock, and E. Beck of Bassano, a timely talk of co-operation for exterminating the gophers.

Every farmer present showed his interest in the addresses, by asking a number of questions upon each subject, and the interest of the meeting will doubtless prove of the greatest value to the farmers during the coming year.

After the meeting proper Don Bark and Earl Beck the respective secretaries of the Brooks and Bow Valley Agricultural Societies spoke about their organizations and following a discussion as to the boundary line between them it was ultimately decided to make the boundary at the middle fork of Matelin Creek a few miles east of Rosemary.

Mr. Beck informs the "Mail" that the farmers in both Countess and Rosemary are solidly behind the Bow Valley Society and the anticipation an enthusiastic membership from each district.

Britain Would Secure A Permanent Peace

London.—A full dress debate on the question of the peace conference, in regard to the payment of indemnities, took place recently. A number of members expressed appreciation that Germany might succeed in her efforts to avoid payment in full.

It was pointed out that Germany might be bankrupt now, but that the development of her resources would enable her to pay. Furthermore, it was not the business of the delegates at Paris to say what Germany could pay. Their affair was to present the bill. It was Germany's business to find ways and means of meeting her obligations.

Andrew Bonar Law, replying, did not think that there was any foundation for the statement that London's government had offered certain terms of peace. Neither he nor the prime minister knew anything about it. In regard to indemnities, Mr. Bonar Law stated that the government still intended to get from Germany whatever amount could be got, but that in this connection they had not been influenced by President Wilson. Looking at the whole problem of war, Britain's aim was to secure peace now and hereafter.

Unless, as a result of the war, the closest possible understanding eventuated, not only with France, with whom we had been all the time on good terms, but also with the United States, with whom we had had a lot of misunderstanding, a great deal would have been lost. The government recognized the greater sufferings of some of our allies and desired to be fair to them, but in connection with reparation the government must be just to the victors. As regards the disposal of money, up to recently the reparation commission had taken no decision as regards the amount of the claims. It was not fair to assume that our representatives in Paris were as keen as the house to get the largest possible amount and that on the question of examination from that standpoint, this argument was equally applicable to the allies.

"He hoped that whatever was done would be done by all the associated powers, but Franco-British interests were more direct than United States."

HAD WEAK and FAINTING SPELLS

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over you from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system. When the system is in this condition there is no time for delay. One fainting spell may be recovered from with the next! One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep-seated and perhaps hopeless. They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor. Miss Mary McCoy, Algoma, Mich., writes: "I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicine to help me. One day a friend of mine was at the house when I took one of those spells, and she gave me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one." Milburn's Heart and Nerve Pills are sold at all dealers, or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

Britain Will Exact Utmost Farthing

London.—In the house of commons, the government was subject to a great deal of criticism concerning the amount of indemnity which Germany is to be asked to pay.

Col. Lowther, Unionist, declared that the delegates to the peace conference in Paris needed to be reminded that a majority of the members of the house of commons solemnly had pledged themselves to exact the utmost farthing from the Germans. He said he hoped Great Britain was not trusting to the United States and hoping before President Wilson, who could philosophically

May Take Over G. T. P.

Stated as Probable Outcome of the Present Situation

Ottawa.—That acquisition by the government of the Grand Trunk railway will probably be the outcome of the present railway situation, was a statement made by Sir Thomas White when the bill concerning the appointment of a receiver for the Grand Trunk Pacific was being considered in committee.

Sir Thomas said he could not make this statement definitely, and suggested as possible alternatives that the government might resort to suit or foreclosure.

There was some criticism of the action of the government by Major Thos. A. V. Lobb, who regretted that an order in council appointing a receiver had been passed before the government had declared its railway policy.

R. L. Richardson, Springfield, declared that there appeared to be a conspiracy on the part of certain newspapers to help the Grand Trunk, and resented the suggestion that the Grand Trunk company should be treated with generosity. There was a feeling left but public ownership, he said.

Sir Thomas White, in the course of his remarks, explained that, under the receivership, the government will not pay interest guaranteed by any of the provinces. The government would only pay enough to operate the system. Sir Thomas denied that the action of the government in regard to the Grand Trunk would hurt the credit of Canada in London.

Speaking at a late hour, Hon. Arthur Meighen stated that no step had been taken by the government which constituted unfair treatment. There had been, he said, a full investigation, with no final limit fixed as was done in the case of the Canadian Northern.

Hungarian Nobles Search for Work

Baron Hatvany Now a Clerk in Private Business

Berlin.—Reports from Budapest declare that the people are fleeing in increasing numbers from that territory. One hundred and forty prominent political figures have been arrested, including Joseph Steney, former minister of commerce, and Count George Karolyi, both of whom are in danger of being sentenced to death.

Baron Hatvany, a millionaire owner of a newspaper, is now a clerk in a private business, and other members of the nobility whose property has been confiscated, are searching for work.

May Have Summer Fair

Moose Jaw.—If the citizens and business men of the city are interested enough to get behind the project, it is probable that a summer fair will be held this year, the probable date being August 5 to 8. Strong committees have been appointed by the Moose Jaw agricultural society to make a canvass of the city and district to ascertain the prospects.

Golf Links on Vinny Ridge

Winnipeg, Man.—The Canadians have laid out a nine-hole golf course on Vinny Ridge, the capture of which by the soldiers of the Dominion was one of the achievements of the war. The news comes in a letter from an officer in France. It is stated President Wilson will be invited to play on the historic links.

The Case of Captain Fryatt

German Investigation of Execution of British Sea Captain Leads to Unsettled Issues

Berlin.—At a continuation of the investigation into the execution of the British merchant marine captain, Charles Fryatt, by the Germans in 1916, Prof. Schucking, a member of the investigating commission, explaining the grounds on which the verdict of death was based, declared there was no obligation under international law to grant the request of the American embassy to appoint a defender for Captain Fryatt. The foreign office, Prof. Schucking said, made endeavors in that direction, but various circumstances rendered such action impossible.

He argued that there was in existence a principle of war usage, making a belligerent force liable to the death penalty for war treason.

The commission investigating the execution of Captain Charles Fryatt by the Germans in 1916, has decided that the shooting of the captain did not violate international law. The committee, however, expressed regret at the rapidity with which the sentence was carried out, according to advice received here from Berlin, where the investigation was held.

Invalide From Siberia

Vancouver.—The C.P.R. steamship Empress of Japan is expected to arrive April 9 from the Orient, carrying a number of invalid soldiers and officers from Siberia. According to information received here the Japan has 700 men and six officers on board.

The Yellow Peril

Captain Martin Smith Says Japanese Will Not Tolerate Discrimination

Ottawa.—"We have finished the fight over yonder, but this has not by any means settled the world problems," asserted Captain Martin Smith of Vancouver, who is stopping in Ottawa for a few days on his way home. "Canada has to face, as she never has before, the yellow peril," he continued. "The Japanese is a high spirited man and is discriminated against, he feels slighted." Captain Smith held out fears that the world may yet be in the throes of a death struggle when the white and yellow races, comprising the Japanese, Chinese and possibly other oriental nations, clash for world supremacy.

Stuttgart in State of Siege

Street Traffic Forbidden After Nine O'clock at Night

Stuttgart, Germany.—The government has proclaimed a state of siege in the city of Stuttgart, and its environs. All shops, theatres and public places must close from eight in the evening until 9 o'clock in the morning and all street traffic is forbidden after 9 o'clock at night. The counter strike which was called as a protest against the general walk out of workmen has been joined by tradesmen, merchants, manufacturers, state and municipal officials, doctors, and chemists. No local papers are allowed and postal and train car services have been suspended.

Allied Forces in Danger in Russia

Radio Admirals of the Fleet

London.—The King has approved the promotion of Admiral Viscount Jellicoe and Vice-Admiral Sir David Beatty to be "Admirals of the Fleet" in recognition of their distinguished war service.

End Your Catarrh To-Day

Catarrh sufferers, meaning those with cold, sore throat, bronchitis, etc., can all be cured right at home by inhaling "Catarrhosept." In using Catarrhosept you don't waste medicine into the stomach—you just breathe a healing steamy vapor direct to the lungs and sin passages. The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, food secretions are destroyed, nature is given a chance and cure comes quickly.

Cold and throat troubles can't last if the pure healing vapor of Catarrhosept is breathed—sneezing and coughing are stopped, and irritation is removed.

Use Catarrhosept to prevent—also to cure your winter cold—its pleasant, safe and guaranteed in every case.

London.—The serious situation in the Murmansk region, and the attempt by the Bolsheviks to drive the allied forces on the Archangel front into the sea are the cause of much anxiety here.

Sir Ernest Shackleton, the explorer, who has just returned from Russia, was so superintending the winter outfitting and feeding of the expedition, confirmed the danger to the allied position and armies. He is credited with stirring British officials into a keener realization of the seriousness of the position in Russia.

Sir Ernest Shackleton, director of equipment and transport of the northern Russian expeditionary forces, has visited points from Murmansk to Archangel. He declared in an interview that both fronts are in danger, and that the Bolsheviks in a very real sense, because the entire forces are disheartened by depleted and well-armed and equipped troops in close touch with the allied extended, but by no means strong force.

The northern Caucasus from the Black sea to the Caspian sea, has been anxiously watched. He declared in an interview that both fronts are in danger, and that the Bolsheviks in a very real sense, because the entire forces are disheartened by depleted and well-armed and equipped troops in close touch with the allied extended, but by no means strong force.

The anti-Bolshevik leaders, fighting have been forced to form new forces of Canada and other allies. The report says that the capture of Vladivostok on January 28, by troops under Gen. Shumakov, completed the campaign against the Bolsheviks, in which 20,000 prisoners, more than 2,000 guns, 350 machine guns, 100 locomotives and thousands of railway cars were taken.

A report from Odessa on February 18, said that the army of Gen. Denikin had scattered a Bolshevik army of 100,000 men, of whom more than 31,000 were made prisoners. Failure of the offensive in the direction of Tulkut, in Courland, west of Riga, is admitted by the Russian Soviet government, in a wireless message received here.

The message adds that fighting is in progress in the direction of Minsk, and that the Russian army of Pakov, northeast of Riga.

A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs." if your child is constipated.

Look back at your childhood days. Remember the "doses" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

It's different. Mothers who cling to the old form of physic simply don't realize what they do. The children revolt if well founded. Their tender little "innocent" faces are soiled by the use of a purgative. If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach; and that a teaspoonful given today saves a sick child tomorrow.

"California Syrup of Figs." which has full directions for babies, children of all ages and for grownups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

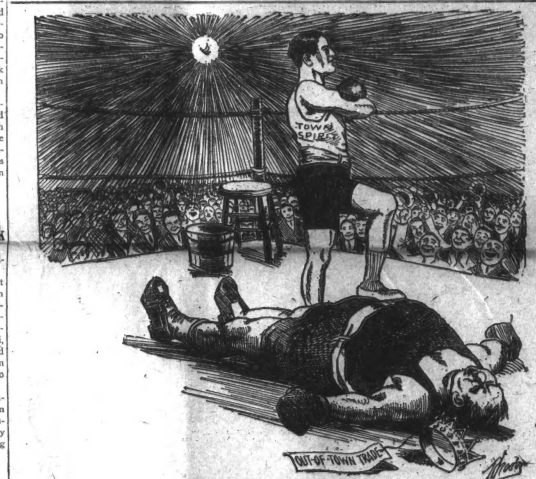

Gen. Byng Not Leaving Army.—London. Although Gen. Byng has declined the Salisbury command, a mass meeting at which underlined his army career, as has been stated.

Bolsheviki Propaganda Spreads in Germany.

London.—Describing the outlook in Germany, the Berlin correspondent of the Mail says the crisis which is rapidly approaching seems certain to be grave, and that the Bolsheviks are making headway in the January or March outbreaks.

One of the storm centers is Bavaria, especially Munich, he writes. The situation in southern Germany has completely changed during the last three weeks. Thousands of people, including many women, attend mass meetings at which undisciplined Bolshevism is advocated and details are made for the abolition of parliament. A political society has arisen that is even stronger than the Spartacists. The members of this party call themselves syndicalists and are apparently fed or inspired by terrorists who escaped from Düsseldorf when government troops occupied that city after the last uprising.

"Bolshevism is working in Germany by propaganda as it did in Hungary and was wrecking and destroying opportunities for work."

THE KNOCK-OUT

How many rounds before the knock out? That knock out blow, when a "Mr. Out-of-Town Trade" gets his final "wallop" from home interests. Are we in training for it? Here is a fight in which the interests of the entire country are one. Is it all of us—and me and our children and our neighbors, our town and our neighboring towns—against this one. Our champion is ourselves—all of us, welded together into one co-operative whole. Will our man win. And when? It all depends on us. If we think as one man, act as one man, trade at home as one man, then we are in good training for that final knock out. In reality we are in the ring at this. In this picture we see ourselves, arrayed as Home interests, triumphant.

Huns Pay Gold for Food

Paris.—The French foreign office has advised that \$55,000,000 in gold was deposited by the Germans in the Belgian National bank at Brussels. The gold is collateral for the payment of foodstuffs which the allies are permitting to enter Germany.

LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

"You reckless men and women who are pestered with corns are pestered at least once a week invited an expert corn doctor to your home to remove your corns by the use of a drug called 'Corn Lifter' which the moment a few drops are applied to any corn, the secretaries are relieved and the corns are pulled out and all lift out with the finger. It is a sticky little compound which dries the moment it is applied and simply shrivels the corn until it falls out of your foot. It is the most wonderful and simple of all remedies for the surrounding tissue or skin. It is done in a quarter of an hour and it costs very little at any of the drug stores, but is sufficient to rid one's feet of every hard or corn or corn." "The doctor warned that cutting a corn is a suicidal habit."

Did Not See Kaiser

Report of Interview by Regbie Has Been Denied.

London.—The article in the London Chronicle by Harold Regbie, describing his interview with the Kaiser, is being denied by the Kaiser's official spokesman. The Kaiser's official spokesman said that the Kaiser had not seen Regbie, and that the Kaiser had not given him any interview. The Kaiser's official spokesman said that the Kaiser had not given him any interview.

Flax Colony in Africa

London.—Replying to a question in the house, Sir R. S. Horne, minister of labor, stated that the government was obtaining expert advice in regard to the possibilities of establishing a colony of ex-members of the military and naval services to develop flax growing in British East Africa. He said that the government was considering the possibility of granting a money grant by the state.

Amstrong.

Harold Regbie has not had an interview with the former emperor. His written questions remain unanswered. He did not receive any subscription to publish the emperor's views, and no statement was given to him. He never saw the emperor; neither did he enter the castle gates.

Cottin's Appeal Is Rejected

Paris.—The appeal from the death sentence of Emile Cottin, the assassin of Premier Clemenceau, has been rejected by the revisionary court martial. An appeal to the court of session is still open to Cottin.

Correspondence

"Damster" Sees Real Beauty in Bassano.

Bassano, April 7th.
To The Editor, Bassano Mail,
Dear Sir:

I beg to congratulate you on your decision to publish a series of articles by Mr. Oxy, for if the whole series are equal to the first installment we (your readers) will undoubtedly have grown fat with increment by the time the series is completed.

I have not been in Alberta very long, but I have had the unfortunate duty to travel on the C.P.R. main, and have been able to appreciate fully the value of the statement made by Mr. Oxy that "Bassano is the ugliest town on the C.P.R."

I have been to Glenora and I have been to Brooks; I have also been unfortunate enough to stop off at practically every small town from Medicine Hat to Calgary and, while perhaps in an artistic sense, I might agree with your correspondent, I certainly disagree with him in a material and commonsense point of view.

Bassano's beauty lies deeper than the eye alone can appreciate. Of course it might have seemed like an example and had its severer appeal to the public eye it might have followed Brooks' and had no sweeter at all, but an entrance prospect from the depot.

Again, Bassano strikes the sense of beauty by its cleanliness and the excellent condition of its roads, the orderliness of its streets and the excellent facilities it provides for its travelling public.

"Unfortunately for Mr. Oxy and his 'friend,' beauty is only represented to them by rows of sweet peas and pansies, clusters of asters, and a few trees, here in the centre of streets and boulevards on the avenues; they do not seem to be able to appreciate anything deeper than the beauty which meets their eyes without the exertion of seeking it.

The Bassano Council, in my opinion, have sought and obtained the better and more lasting form of beauty when they put in waterworks, sewer and irrigation systems, instead of spending money on a beauty scheme to rest the eyes of travellers on the C.P.R.

Of course we would like to see our town all a-blowing and a-growing but if our past and present Council had devoted their attention more to the form of beauty which would appeal to Mr. Oxy and his "friend," instead of the solid satisfying beauty of material benefit to the own citizens, our streets would have been a-blowing and growing with weeds long since.

We would earnestly advise Mr. Oxy to stay for a few days in some other towns on the C.P.R., particularly the two I have mentioned. I will guarantee that after a couple of days' sojourn in either his sense of beauty will change from the realistic to the material and he will quickly place Bassano in a different category.

All of which, Mr. Editor, does not imply that I would not like to see the people of Bassano make an effort to beautify their houses and, incidentally, the town; which I imagine is the point of the article you comment to our attention.

DAMSTER.

Editor Glad to Make Rate Under Old Conditions

One man who called in a country newspaper office recently was firm in his idea the editor was in the profiteering class because the price of the paper had been raised to 82 a year.

In looking up his subscription account it was found that when the price was \$1 he had paid his subscription with eggs one year and the editor was glad to offer him the paper for \$1 again provided he brought in the same amount of eggs. In this case it was nine dozen. But he refused and preferred to pay the 82.

"In looking over the books of the 'good old days,' it was found another man had presented a case of honey for two years' credit; another a dressed turkey, in lieu of the dollar.

Anyone who made such exchanges in the past, says the editor, is more than willing to duplicate the offer on the same basis.

Borrowing At Home Instead Of Going Abroad

Canada having, during the last two years of the war, demonstrated her ability to finance herself, it is now expected, both at home and abroad, that she will continue to do so. Lend-Lease advice say that she is expected to meet loans falling due there this year and that Canadian raising there since that time should be done. In addition to the financing of the Dominion's growing foreign trade.

Canadian opinion also pretty generally agrees that it is in the interest of the country that this should be done. There is a feeling that while some borrowing may have to be done abroad, still the less that is done, the better for Canada. Indeed the wisdom of converting Canada from a borrowing into a lending nation is so manifest that there is a general demand that this be done.

War Savings Stamp are a step in this direction, for through their sale funds are placed in the hands of the Dominion Government. In other words this means that, instead of borrowing in London and New York, the Government is trying to get at least the funds it needs. It has also arranged that any person having \$4 may lend it to the Government, while, only 95 per cent compounded half-yearly.

\$100.00 REWARD

For return of red and white spotted milk cow, 6 years old with long horns, branded C.P.R. on right ribs and 75.11 on right shoulder, strayed away from my ranch in Rosemary, February 26th.

E. G. SIMMONS,
Rosemary, Alta.

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR. Irrigation makes possible the successful culture of alfalfa, the King of alfalfa, which insures good returns in dairying and mixed farming. Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experimental thing; that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to
Allan Cameron, General Supt. of Lands
Canadian Pacific Railway, Department of Natural Resources
920 First Street East, Calgary, Alberta.

\$10 REWARD
LOST: One 2 year old Gray Gelding,
branded RU on left shoulder.
MRS. MARTHA SCHNEIDER,
Calgary.

Mr. Oxley Quits Slamming and Gets Down to Real Business

Shall I apologise for the "Slam" that seems to have disturbed the
mental equilibrium of many of the loyal Bassanites? No, I don't
think I will. Now wasn't it true? And isn't it really about time the
citizens of this town with a future, took a little forethought for that
future? I am quite sure that there is not one disorganised opinion in the
town that some sort of effort should be made to beautify its streets and
avenues. I was almost inclined after my last visit to have medals
struck, one for the Mail for being the pioneer in tree planting and one
for the Chinese restaurant where I saw the only flower in Bassano! Now I
think Bassano is a nice place, peopled by particularly nice people,
and I am not out to Slam either. I want to imbue them with the idea
of the "city beautiful."

Other cities, some not as important, are putting efforts out in this
line, and the aesthetic idea that a town should be beautified by the
work of its citizens is surely gaining ground.

If some of the untidy vacant lots were ploughed and planted, even
the greenery of growing potatoes would add to the impression of com-
munal prosperity.

Now we are quit with slamming and turn to appealing, and ask the
residents to make a start on the lines I suggest.

If any of you willing ones are a little perplexed with garden work that
is new to you, write me for information and you need not enclose stamp
for reply.

Some Valuable Suggestions.

New Varieties of Potatoes

I have had more enquiries on above
subject, many from B.C. and near
points, than on any other, with perhaps
the exception of small fruits. In answer
to all these let me say, "The potato never
sleeps. That is, new varieties are only
evolved by the medium of intelligence,
namely of the plantist and staminate
(flower sexes) blooms. That is hybrid
ization as connected with horticulture.
There are many, some that consider
themselves expert gardeners, will tell you
that by insertion of spout from one
variety in the tuber of another you get a
cross between the two. You may as well
say that the child of white parents latered
by "blackmanner" yet nurse will
develop into a mulatto.

It is very interesting work crossing the
varieties of potatoes. Every seed will
give you something distinct and some-
times—very rarely, it can be con-
sidered—something of real value turns up.

I am having some seed sent you this
spring from the greatest potato hybridist
and experimenter living.
I can save a small plant of seed to
grow some more, but the dry, hot
hands at raising new kinds of potatoes.
There will not be much to spare, but
my order is enough to trouble
with it I will be glad to pass a little on
to one or two, gratis.

The seed is germinated and seedlings
planted just as you would treat tomato,
cabbage or any annual flower.

Exhibition Onions

How To Grow The Big Yellow That
Will Carry Off Prizes At The Fair.

I think I get more queries on how to
grow large onions than any other subject
of vegetable garden.

The first thing in with our short sea-
son, to get a good start. This is how I
do it.

If a frame of lotted or heated green-
house is not available, use a sunny
window. Sow the seed at once in boxes
filled with fine rich soil. From the soil
damp (not hard) with a flat piece of
wood, so that it presents a perfectly level
surface. Place one seed on each square
inch of surface and press into the soil,
cover with the lightest dusting of manure
loam or compost. Water well. Dip the
whole box into the water, if possible,
taking care that it is kept level, and
cover with a pane of glass if you have
one. The seed will soon begin to sprout.

Keep seedlings growing by regular
watering until the season, generally in
April, or early May, for transplanting to
permanent quarters.

We will deal with after treatment
when the right season comes.
The following will give bulbs over two
pounds weight if directions are followed:
Garter's Record, Priestner, Giant
Globe and Mammoth Redhead.
Just Waterbury is a grand onion and
you can get bulbs to one pound in
weight.

Swiss Chard or Spinach Seed

I had such success with this most ex-
cellent vegetable last year that I am
anxious that you all should try it. The
seed is cheap and cultivation most simple. Sow seed
overnight. Sow in shallow box of rich
soil about eight or ten feet or in sunny
window. Plants grow very quickly.
Plant out in any ordinary garden soil
15 or 16 inches apart, and keep well
watered. The root is under the food
but the stalk or midrib of the leaf is
equal to the finest asparagus and the
green portion is superior to spinach.
The leaves can be pickled or stewed for
use, and the plant keeps producing until
killed by frost. As a vegetable I certainly
should place it as one of the best of any of
the cabbage family, plant for plant, in
food value. I like the variety Lancia
best. It has the savory carrot leaves
and is very ornamental in the vegetable
garden. Shall have a few seedlings to
give away if any reader wishes to try it.

Preparation of Soil

Of course in this district the method
of cultivating a garden is often by plow-
ing and disk-ing. In the case of new
prairie garden this method is a most im-
perative, as spading would be both too
laborious and take too much time.
Even in plowing the work should be
watched to see that it is done properly,
and that the furrow is not set too wide
and too shallow. I have seen some
miserable plowing here in local gardens,
and only the extreme fertility of the
virgin soil renders it possible for such
slipshod work to give any crop at all.
In gardens that have been previously
cultivated, spading can insure satis-
factory results.

In free and open soils and as are met
with locally, perhaps the digging fork
gives the best work as it pulverizes the
soil more thoroughly and the likelihood
of lumpy the clods is not so great.
But where thorough cultivation is want-
ed there is no method of preparation,
equal in my opinion, to what is termed
"swarded treading."

Starting at one end of the plot to be
planted take off the top soil to a trench
about two feet deep across the area to be
cultivated, wheel this soil to the far end
of the plot to be used in leveling the
last trench at the finish. Put well rotted
manure into this trench and turn into
the subsoil. Do not lay in the manure
and tread it down as I see recommended
in a contemporary. Thoroughly mix it
by turning into the lower soil. Then lay
out another two-foot space with the
line and throw the topsoil from this on
the trench just prepared. Proceed thus
until the whole plot has been treated.
Fertilizer to the amount of ten to twenty
pounds to the 25 ft. lot can be sown
broadcast, or mixed with the surface soil
during operations, if land has been
heavily cropped, or is of poor quality.
Of course this means loss of work but it
does nothing to these directions, you
will have your land prepared in what
has been proved to be a thoroughly
efficient manner, and so recognized by
gardening experts.

You will certainly, other factors being
propitious reap an adequate return for
your labour by heavier crops of better
quality.

Canterbury Bells

I was much struck with the magnifi-
cent display of this flower at the City
Hall, Calgary last year.

It is rather hard for the ordinary
gardener to raise this lovely flower in all
its varied time, form and colour as it is
a biennial.

I dare say the demand warranted it
the local florists would raise it and stock
plants for present year blossoming.

It is a great decorative flower. Ask
your florist about it.

The Outstanding Product of a Large Manufacturing House

FOUR large factories and five dis-
tributing warehouses stand back
of Brandram's Genuine B.B. White
Lead.

Every step in its manufacture is
closely watched by chemical engi-
neers—nothing is left undone which
would help to maintain the quality of
the world's finest white lead.

Brandram's Genuine B.B. White Lead

is different from any other white lead. To be-
gin with, it is corroded by several secret
processes which are then merged into a pigment
of marvellous smoothness. This pigment is ground
no less than five times, first under huge stones,
and finally between heavy steel rolls. In this
grinding process, it is made into a pulp by be-
ing mixed with pure refined linseed oil made
in our own insured mills.

Whenever you paint, use Brandram's Gen-
uine B.B. White Lead if you mix your own
paint. If you want to save the labor of mixing
you can ensure the use of this quality pigment
only by getting B-B "English" Paint.

Local and Personal.

Mr. and Mrs. Van Osdale were visitors to town on Monday.

Service will be held on Sunday next at the Anglican Church at 7:30 p.m.

Miss Rogers, of Moncton, N.B., is visiting her sister, Mrs. E. R. Muir this week.

Congratulations to Mr. and Mrs. R. A. Travis on the birth of a son, Sunday April 6th.

Born, on Monday April 7th to Mr. and Mrs. Ben Plummer, a daughter.

Special Easter services will be held April 20th morning and evening. Everyone cordially invited.

Ivan Pierce who has been staying for the past few months on a ranch near Seattle, Wash., returned to Bassano on Tuesday.

Councillor McKee was elected Deputy-Mayor for the ensuing three months at the last meeting of the Council.

Word was received in town on Tuesday that Mrs. Hankle, the mother of Carl Hankle of Gallatinville died this week at Wellburn, Idaho.

The Ladies Altar Society desire to express their appreciation of the kindness extended them by T. H. Hunter, J. Bulmer and all the ladies who assisted on the occasion of the recent Whist Drive.

We are informed that the normal service of the Electric Light Plant will be resumed by next week, for which, we suppose, we should be duly thankful, but we had hoped for more.

We were kindly informed this week that a very pleasant young person in town had mistaken one of the Dixie Singers for us. Which explains no doubt why the gentleman was so peeved with himself.

A perfectly good reputation was shot to pieces on Tuesday when one of the Dixie Singers intimated that a certain very popular young man in town had been indulging in promiscuous, scandalous, excessive. But we don't believe it Joe.

At the Presbyterian Church on Sunday evening, April 13th, the minister will speak on the subject "The Crucifixion of Christ." On Wednesday evening at 8 o'clock, the Preparatory service will be held, which all members and friends are urged to attend.

The Bassano Amateur Minstrel will give their annual entertainment next Wednesday at the Gem Theatre. A number of new entertainers will appear and the program contains some really unique turns which should prove very popular.

The Bear-Cats put the quietus on the aspirations of the Gleichen Experts when they reversed a minority of 60 at the end of the 1st game into a majority of 37 by the close of the second and finally won out by a plurality of 37. The games were played at the Exchange Alley's Cagarr, and the Bear-Cats who made the trip were McCook, McKee and McLan, Cutrie, Holmes, and our old friend Billy Bonerville. Cap'n Geo. Stiles was also with the boys, but was seized with an attack of La Grippe and was unfortunately not able to bowl.

Countess and Rosemary

The latest reports from official sources regarding the influx of new settlers is that over fifty families will be located before the summer is over between Rosemary, Countess and Duchesne.

Farmers from both districts are very anxious to secure a post office, either jointly or at each point, for the settlement of the district is such as to demand better service from the P. O. authorities.

Big efforts are being made to have the new Church completed in time for the Easter Mass.

Father Beaton was a welcome visitor here last week, and celebrated Mass here on Sunday, and Rosemary on Monday.

U.F.A. At Bassano

Continued from front page

Locals in the Federal District of Bow Valley will convene at Bassano during the month of June, for the purpose of nominating a candidate from among their number to represent the U.F.A. in the next Federal Election.

As there are about fifteen locals in the riding and each local may send one delegate for each ten members it may readily be seen that the town will be a busy place during the convention.

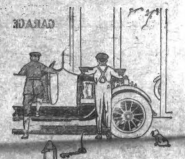

Provided sufficient notice is officially given of the meeting there need be little fear that Bassano will not be able to handle the crowd, but we trust that the arrangements are in capable hands, and that all necessary precaution will be taken to provide proper accommodation for the delegates.

Several names are being mentioned as likely to receive the nomination, among them being Gordon Foster, John Glanbeck, J. C. Buckley, W. J. Winding and Dan Shaw.
